

Docker for Developers - part 1

David Gageot

Core Engineer

dockercon 16

Agenda

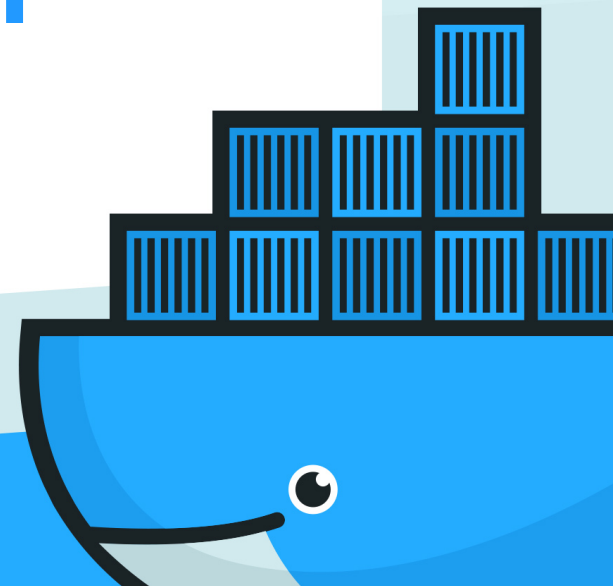

Docker for Desktop

Intro

Long demo

Docker for Desktop

**“The easiest and best way
to use Docker on your
laptop”**

Demo

```
~/src/docker/expressApp$ docker build -t chrisdias/  
expressapp  
Sending build context to Docker daemon 72.18mb  
Step 0 : FROM node:latest  
--> 8e20baae42c8  
Step 1: COPY . /src  
--> 8e20baae42c8  
Removing intermediate container afdcd49c779  
Step 0 : FROM node:latest  
--> 8e20baae42c8  
Step 1: COPY . /src
```

Thank you!
